

# Cash help for eco ideas

A number of environmental projects in Walsall have received a cash boost in the latest round of landfill funding.

Walsall Council has teamed-up with Cleansing Services Group (CSG) to award £79,500 to organisations across the borough.

The projects to benefit from the Landfill Tax Credit funding are Mossley Adult & Young People's Association, St Andrews Community Church in Bentley for building improvements, and the restoration of the organ at St Judes Church in Chuckery.

Cash will also be given towards ground improvements at Pelsall Cricket Club and more play and youth facilities in Brownhills.
